

Document Name	ENVIRONMENTAL POLICY STATEMENT
Document Number	HSEPOL003
Scope	ENGIE Services
Effective From	1 st July 2018

ENGIE Services takes seriously the responsibility to care for and protect the environment for the benefit of our employees, clients, subcontractors and the community. Our commitment is to deliver our products and services in an environmentally responsible manner.

We are fully committed to improving environmental performance across all of our business activities. We will continually strive to reduce pollution, conserving resources, reducing waste and minimising adverse environmental effects associated with our operations.

ENGIE Services is committed to:

- Establishing, implementing and maintaining an Environmental Management System within all its divisions.
- Complying with relevant legislation, codes of practice and standards.
- Setting measurable objectives and targets, and continuously work towards meeting or exceeding these.
- Providing a framework for continuous improvement of environmental practices and process.

ENGIE Services will:

- Identify any impacts of its activities that have a significant impact on the environment and carrying out control measures to prevent any adverse effect to the environment.
- Ensure that all environmental related incidents are reported, investigated and appropriate action is taken and shared to prevent future reoccurrences.
- Promote the protection of flora, fauna and waterways through responsible waste disposal and minimisation of our environmental footprint.
- Ensure our employees and contractors understand the importance of incorporating environmental management considerations in their daily operational activities.
- Provide adequate resources, including financial budgets, for environmental management.
- Use its resources efficiently considering their impact on the environment and minimising the generation of waste.
- Thoughtfully promoting programs in recycling and waste management including the purchasing of recycled products where possible and within reasonable cost boundaries.
- Communicate the Environmental Policy to all employees and subcontractors.
- Review the Environmental Policy and Environmental Management System to ensure they remain relevant and appropriate to the business.

The ENGIE Services Leadership Team is responsible for ensuring the implementation and monitoring of the Environment Management System within the divisions under their direct control.

As the Chief Executive Officer, I am responsible for the overall implementation of environmental standards within Australia & New Zealand and to ensure the commitments made in this policy are met.

Corinne Ong
CEO ENGIE Services
